- Second, choose **one** of your responses from the “Going Beyond” questions **from one topic of your choice**. Copy and paste what you have in this box into the corresponding box on the Talking Points section. You will have a total of 1 “Clarifying Misconceptions” entries in the Talking Points section.

**Step 3:** Use your Talking Points section during your discussion: Be sure your group discusses **all** of your entries in this section. You *definitely should* talk about more from your notes than the points you selected as your “Talking Points” - This is just the minimum requirement.
